OFFICE OF COUNTY JUDGE  
**MISSISSIPPI COUNTY**  
**ARKANSAS**

October 16, 2023

Secretary Frank Kendall, III  
Secretary of the Air Force  
Department of the Air Force  
1690 Air Force Pentagon,  
Washington, DC 20330-1670

Dear Secretary Kendall:

Thank you for all that you do in defense of our great nation. We thank you and the more than 320,000 other U.S. Air Force personnel for keeping us safe in an everchanging and increasingly dangerous world.

I am the County Judge of Mississippi County, Arkansas. My elected office is the chief executive officer of our county. I grew up on a family farm, mere yards from the fence line at the former Eaker Air Force Base near Blytheville, Arkansas. I grew up in the heights of the Cold War and watched as our Strategic Air Command's B-52Gs and KC-135A's circled our skies and stood on high alert should the former Soviet Union attack.

At one time that air base was the county's largest employer. We were proud to be the home of SAC and we swelled with both pride and tears as a result of Operation Linebacker II and Hulk-46. Being a host community, ever mindful of being the mission-centric support for thousands of air force personnel, whether during their most happy times (i.e. birth of children, marriages, etcetera) or the most trying of times (i.e. when family members deployed, were killed or were taken captive), we miss having the base here and invite its reactivation.

We know this is possible because it's been done before. The Blytheville Army Airfield was activated by the Southeastern Air Command during World War II, when our nation was in such great need of trained pilots. What caught the Defense Department's attention, regarding our location was a simple letter that our local Chamber of Commerce had sent prior to America's entry into the war and an invitation, very much like this one today, to locate a base in our county. However, today's invitation makes even more sense.

At the end of World War II, the airfield was deactivated for a time. Our community lobbied to have it reopened and showed such commitment to our flying men and women, that soon the Tactical Air Command decided to reactivate and expand the base. Next, Strategic Air Command saw the wisdom of locating a portion of their “tip of the spear” nuclear triad here. The base had a very long and proud history.

With the “end of the Cold War”, BRAC closed a lot of military installations and unfortunately Eaker Air Force Base was one of them.

- With the world “heating up” with increased threats to our nation from China, Russia, Iran, North Korea, as well as from increased threats of terrorism, it makes sense to once again spread our military (especially nuclear response) assets out geographically like they once were.
- I have heard from at least one congressperson and congressional staffers that Washington is beginning to reexamine the wise strategy of deconcentrating our military assets to better protect our homeland and to assure timely and complete responses, should one be needed.
- Mississippi County still remembers how to support the U.S. Air Force. Our county has a large veteran population and hundreds of former Eaker Air Force Base personnel have made Mississippi County their forever home.
- Our geographical location, transportation outlets and infrastructure would make reactivation a success...and much more speedily than at other locations.
- The Arkansas International Airport, the former runway of the airbase, is still functioning and is large enough to accommodate any aircraft (including the space shuttle). It has a concrete surface of 11,602' x 300' and runway markings of 11,602' x 150' (3,536 x 46 m)

I invite you to visit and put myself and my office at your service. Anything that we can do to assist you, don't hesitate to let me know. Once again, thank you for your service!

Sincerely,

John Alan Nelson  
County Judge
